

### Educational Qualifications

- **MBBS** : 2007 MUHS Nashik
- **MS Orthopaedics**: 2010 MGMUHS Navi Mumbai
- **MRCS**: 2013 Royal College of Surgeons, Ireland
- **Fellow of European Board of Trauma & Orthopaedics** : 2015 Switzerland
- **FRCS Trauma & Orthopaedics**: 2017 Royal College Of Surgeons, Ireland
- **Fellowship in Primary and Revision Hip & Knee Arthroplasty** : 2018-2019 Robert Jones & Agnes Hunt Orthopaedic Hospital, Oswestry, UK
- **Fellowship in Revision Hip and Knee Arthroplasty**: 2019-2020 National Orthopaedic Hospital -Cappagh, Dublin, Ireland
- **ATLS Certified Surgeon**

### Physiotherapy

- We follow international protocols for recovery following Joint replacements.
- All patients are cared by our excellent physiotherapy and nursing team. All patients are made to walk the same day after the operation.
- Advances in anesthesia and periarticular infiltration means less pain and early rehabilitation and quick discharge following operation.

# TOTAL JOINT REPLACEMENT

**Good bye joint pains  
Welcome mobility**

#### DR. ABHITEJ SUBHASH MHASKE

MS Orthopaedics (Mumbai);  
FRCS Trauma & Orthopaedics (RCSI Ireland);  
Fellow of European Board of Trauma & Orthopaedics (Switzerland)  
Fellowship trained Primary and Revision Hip and  
Knee Arthroplasty Surgeon (UK & Ireland)

✉ drabhitej@gmail.com, Contact No. +91 9136644377

After pursuing my MS Orthopaedics degree in 2010, I wanted to get best of the training in Orthopaedic field. So I decided to go to UK and Ireland and train under the best.

I started my journey working in the busiest trauma unit in Ireland, the only level 1 trauma centre in the country, Cork University Hospital. There I polished my trauma skills with operating and supervising more than 4000 trauma cases in a short span. I got to independently operate complex trauma cases, non unions, revision trauma cases, osteoporotic fractures, etc. Also during that time I studied and completed the MRCS exams and the FEBOT (Fellowship of European Board of Orthopaedics and Traumatology Exam). I did not stop there and wanted to achieve the highest degree in Orthopaedic field, the FRCS exam. After rigorous hard work and dedication, I cleared the FRCS exams and was awarded the Fellowship of Royal College Of Surgeons, Ireland in 2017.

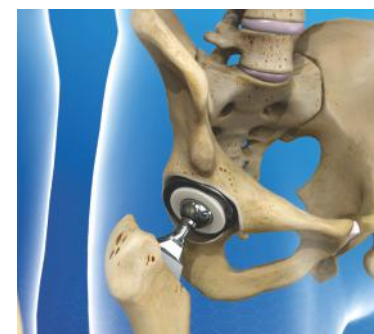

I developed my interest in field of Arthroplasty. I pursued a Primary and Revision Arthroplasty Fellowship in the prestigious Robert Jones & Agnes Hunt Orthopaedic Hospital in Oswestry, UK. I was trained by the best in the business and got to operate numerous total hips and total knee replacements. Revision surgeries of total knees and hips are difficult operations and I wanted to get more experience in these. I did a year fellowship in Revision Arthroplasty at National Orthopaedic Hospital, Cappagh, Dublin, Ireland. In this span of few years, I have operated more than 2000 joint replacements and a few hundred revision joint replacements. I have a vast experience in successfully operating failed and Revision arthroplasty cases. I am an ATLS certified trauma surgeon with very good results in routine & complex trauma cases.

## EXPERTISE

### Total Hip Replacement

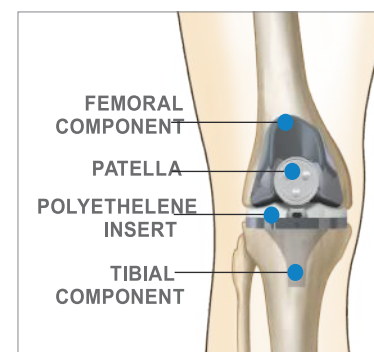

- Most successful operations in orthopedics
- Trained for 4 yrs at Cork University Hospital, IRELAND under Prof. James Harty.
- I use advanced material & methods to give higher implant survival rates.

### Total Knee Replacement

(Computer Navigated)

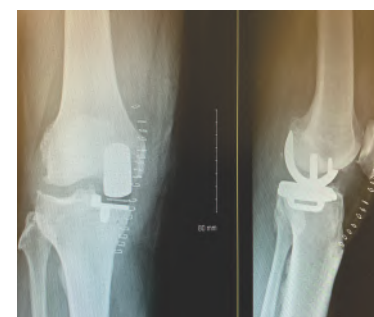

- Exclusive training under the able hands of Mr. N. Graham & Mr. S. Karlakki at the prestigious Robert Jones Agnes Hunt Orthopedic Hospital, Oswestry, UK.
- Improved and limp free walking achieved with correcting progressive deformities of knee due to underlying arthritis.

### Unicompartmental Knee Replacement

Replace only the diseased part of knee leaving behind your healthy functional knee.

- **Trained in Oxford for the Oxford Unicompartmental Knee replacement**
- Early recovery from surgery
- More anatomic and kinematic knee experience as all ligaments preserved

## EXPERTISE

### Revision Hip Replacement

- Bringing the wide experience of U.K. & Ireland of Revision Arthroplasty to India.
- Exclusive one year fellowship in Revision Arthroplasty

### Revision Knee Replacement

- One year specialised training under Professor J.O'Byrne & Mr. P. Keogh Knee Specialists at National Orthopedic Hospital, Dublin.
- Advanced diagnostics tools to establish cause of failure and wide experience in successfully operating failed knee replacements.

### Young Patients Arthritis Service

Why suffer in pain due to arthritis? Avail the benefit of joint preserving surgeries to get rid of pain.

- Periacetabular Ostotomies in early hip arthritis in young patients due to DDH
- Limb alignment osteotomies to prevent arthritis progression in knee arthritis
- Arthroscopic cartilage regeneration procedures in young patients with isolated knee cartilage defects
- Procedures aimed to delay joint replacement surgeries
